## Regional Statistical Yearbooks

2013

---

### **Regional Statistical Yearbooks - Regional and municipal statistical data**

Statistics Portugal releases the Regional Statistical Yearbooks, which are the key publications regarding statistical data disseminated at regional and municipal levels, aiming to support the knowledge of regional developments and the analysis of territorial-based issues.

Most of the statistical information is available at municipal level for 2013 and for this reason these publications are an important analytical tool for local governments and a relevant basis for the knowledge of the territorial contexts of citizens' daily lives.
